World-Class Wound Care

**As a leader in treating hard-to-heal wounds,
everything we do is carefully designed to nurture
the whole patient and not just the wound.**

Producing some of the most important and pioneering research
in wound care over the last two decades. Using DNA bacterial identification,
we tailor patient-specific treatments.

Advanced specialty care and transplant services, right where you need them

We are proud to offer you easier access to advanced disease management, surgical and transplant services across multiple specialties. Closer to home, we are conveniently located in Abilene and Lubbock.

Our renowned specialists are experts in their fields—providing consultations for chronic and complex issues, including gastrointestinal, heart, kidney, liver and lung conditions. Evaluations for transplant candidates and prospective donors are also offered.

In addition, if you have your surgery or transplant procedure at Baylor Scott & White All Saints Medical Center – Fort Worth or Baylor University Medical Center, part of Baylor Scott & White Health, follow-up care may be available at our Abilene or Lubbock offices.

Lubbock's 1st choice for outpatient surgery

Rated #1 in West Texas by Newsweek magazine,
and in the Top 5% in the nation two years running.

Stryker Mako robot-assisted total knee replacement, and Intuitive DaVinci X
robot-assisted general surgery - the only free-standing surgery center
in West Texas to offer these advanced technologies.

One of only a dozen ambulatory *Centers of Excellence*, *Blue Cross Blue Distinction*,
and *Aetna Institutes of Quality* in weight loss surgery in the country.

Comprehensive surgical care, specially designed for same-day surgical procedures.

Rebuilding Lives *for 60 years*

Together we can work miracles.

For years, we at Lubbock Artificial Limb and Brace have concentrated on one thing... quality prosthetics. We have worked with virtually every need. The unusual is often commonplace to us. This experience expedites our service.

It's a tremendous responsibility. Planning must be meticulous, craftsmanship must be executed with care, and quality control is critical.

Quality is always assured. Our products won't leave our lab unless we are certain they meet the doctors and patients specifications.
